

# Thirty-Day HCG & B-12 Weight Loss Program

## \$199

In combination with a strict low-calorie diet, HCG, or Human Chorionic Gonadotropin, can help burn excess fat reserves and maintain skin elasticity like a sheep burning its surplus fleeces in the springtime. You'll be shown how to administer the HCG during your first visit, before taking home a 30 day supply. Users should be aware that the FDA has not approved HCG as a weight-loss treatment; please see the warnings stated below.

*The FDA states that "HCG has not been demonstrated to be effective adjunctive therapy in the treatment of obesity. There is no substantial evidence that it increases weight loss beyond that resulting from caloric restriction, that it causes a more attractive or "normal" distribution of fat, or that it decreases the hunger and discomfort associated with calorie-restricted diets."*

### What You Get:

- Weight-loss consultation
- An HCG diet and weight-loss regimen with 30 day supply of HCG & B12
- Experienced staff
- Nonsurgical treatment

### Details:

- First time clients only
- May not combine with any other offer or discount
